I remember that time
All through the night
Trying not to close my eyes
Again

Pretending that all he got was
In a stolen car
Trying not to pull over
And cry

My eyes so red
I just want to die
Kill me with your words
Kill me one last time

Cut out my heart
And throw it on the floor
For everyone to see

Remember you said
"Kiss me sweetheart
Before you go again."

Remember you said
"Kiss me sweetheart
Before you go again."

Don't say
It's over
This time

Don't say
It's over
This time

She's waiting on the inside
For me to call again
Waiting for her
Just to say goodbye
One last time
Waiting on the inside

I'm supposed to say
Anything at all
To make you want me back

If I had three wishes
I wish them all on you
I wish you away
From meeeee

Supposed to say
Anything at all

She's waiting on the inside
For me to call again
Waiting for her
Just to say goodbye
