(Brock)

When I stand upside down

Can't get a thing together and I don't know why

Oh dear you look so good

Don't you think it's heaven like you knew you would

Oh dear what shall I do

(?????????????) reason and it's up to you

I stand upside down

Can't get a thing together and I don't know why

You know you look so fine

Can't get a thing together and I don't know why

I stand upside down

Can't get a thing together and I don't know why

Oh dear what shall I do?

(?????????????) reason and it's up to you

I stand upside down

Can't get a thing together and I don't know why
