Utopia, Utopia, Utopia  
Welcome to Utopia  
Planet of your wildest dreams  
Where everybody drives a Cadillac car  
And the streets are paved with hamburgers  
And the rivers run with Watney's draught Red Barrel  
Utopia, where all your needs are catered for  
Anticipated, calculated  
All your wants are monitored, programmed, computer  
formulated  
We know you will be very happy here  
Nobody has complained  
Yet.....
