I wandered far in lands unknown  
'Til I came to my earthly home  
Far away I found life's dreams  
Drifting on a silver beam

You'd better believe it  
It's so easy to say  
It's so easy to say  
It's so easy to say  
It's so easy to say

Traveling, twice the speed of light  
Orion's stars are high tonight  
Gentle madness touched my hand  
Now, I'm just a cosmic man

You'd better believe it  
It's so easy to say  
It's so easy to say  
It's so easy to say  
It's so easy to say

Traveling, twice the speed of light  
Orion's stars are high tonight  
Gentle madness touched my hand  
Now, I'm just a cosmic man

You'd better believe it  
It's so easy to say  
It's so easy to say  
It's so easy to say  
It's so easy to say
