Just stay the night  
and you'll see that things can work out  
and this will last forever  
just turn your back and run  
how long can we wait for things to change  
so this will last forever

Every day, all I say  
turn to dust and fade away,  
so this will last forever.  
Fade away and replace  
turn your back and walk away  
and this will last forever.

Waiting for tomorrow  
just wait for today  
to close my eyes

Waiting for tomorrow  
just wait for today  
to say goodbye

She never said she loved me  
she never said goodbye  
she never said she loved me  
she never said goodbye

Fade away and replace  
turn your back  
walk away  
She never said goodbye

Let's kill the lights, start to see  
so this can blend out  
make this last forever  
just turn your back and run

Fade away and replace  
turn your back and walk away  
so this will last forever.

Waiting for tomorrow

just wait for today  
to close my eyes

Waiting for tomorrow  
just wait for today  
to say goodbye.
