Lets try to remember these days back in December  
Our lives were very different  
I was lonely when we first met  
A small upstairs apartment  
Driving through the darkness to get back home  
Before they knew you were even gone

You don't have to speak because I can hear your  
heartbeat  
Fluttering like butterflies searching for a drink  
You don't have to cover up how you feel when your in  
love  
I'll always know I'm not enough to even make you think

Please, slow down, girl  
We're moving way too fast for their world  
We've gotta make this last

I miss you so much, a self-inflicted coma  
The days drag on like marathons running with bare  
feet  
And when i feel the stress, I'm lonely and depressed  
I picture you in the dress you wore four weeks ago

You don't have to speak because I can hear your  
heartbeat

Fluttering like butterflies searching for a drink  
You don't have to cover up how you feel when you're in  
love  
I'll always know I'm not enough to even make you think

Please, slow down, girl  
We're moving way too fast for their world  
We've gotta make this last  
I know it hurts to feel so all alone  
I'm by myself, more then you could know

If only they were all alone...  
They were all alone...

Please, slow down, girl

We're moving way too fast for their world  
We've gotta make this last  
Slow down girl  
We're moving way too fast for their world  
We've gotta make this last

I know it hurts to feel so all alone  
I'm by myself, more then you could know

If only they were all alone...  
They were all alone...  
They were all alone...  
They were all alone...
