### "Half For Me"

They were the only  
Smokers  
So they'd meet  
Outside every twenty minutes, when we all used to  
hang out.  
Soon they became drawn  
To each other and anticipated  
The next time they'd meet and we had no idea.  
The four of us, the two of them;  
My girlfriend, and my best friend.  
One night they announced  
To us  
They were going  
To go for a walk and soon they began splitting packs in  
half.  
Half for him, and half  
For her.  
Half for me is half  
For sure.
