

## Hawthorne Heights "Last Few Words"

Visit "[Last Few Words](#)" on [MotoLyrics.com](http://MotoLyrics.com)

I'll take control  
if you let me  
just promise you won't forget these last few words

I'll take it slow and gentle  
just as long as you remember these last few words

just one more reason to hate this all again  
just one more way to make it through the day

let's make this nice and easy  
to swear that you'll never leave me  
till I'm just a ghost

all this distance is so painful  
maybe I'm just too sentimental  
with all this lack of being close to home

just one more reason to hate this all again  
just one more way to make it through the day

I know you feel so tired  
with all these arguments  
just one more reason to call this all the end

look into my eyes and watch me burning bright  
look into my eyes and watch me burn tonight

remember these last few words  
remember these last few words

just one more reason to hate this all again  
just one more way to make it through the day

I know you feel so tired  
with all these arguments  
just one more reason to call this all the end

just one more reason to hate this all again  
just one more way to make it through the day

I know you feel so tired

with all these arguements  
just one more reason to call this all the end
