Are we telling lies
Or are we just keeping secrets
Everybodys turning pages, in my life

(Chorus)

Lets talk about this summer sunshine,
My life is dark right now like a winter night.

Are we starting to separate
Or are we just forgetting faces
Everybodys turning pages, in my life

(Chorus)

Lets talk about this summer sunshine,
My life is dark right now like a winter night
So hold your head up high, you know what youve done
Happens once in a lifetime

Another time to life in doubt
One more line, scream out loud
If we could only wait this out
We'll see this through (x2)

Lets talk about this summer sunshine
My life is dark right now like a winter night

(Chorus)

Lets talk about this summer sunshine (summer
sunshine)
My life is dark right now like a winter night
So hold your head up high, you know what youve done
Happens once in a lifetime

So hold your head up high, you know what youve done
Happens once in a lifetime.
