She called last night, still waiting for a reply
This static contact, pulling us apart
Please hang on tight, I'll see you through the night

You have me still because I'm breathing
Although it has slowed down
Please don't cry because I'm leaving
I hope, I see you soon

Exchange the sunshine
For brown eyes and dark skies
Replace this dull life with you
I know, it's tomorrow
She's waiting for something to feel alive

You know me too well
She's sorry and I can tell
Scene missing, 'Fade To Black'
You're acting all this out again

Just wake me when it's over
When the curtains raise
It's time to move on

Exit now, credits rolling
The girl who stole my heart
The one that got away
(One that got away)

You know me too well
She's sorry, I can tell
Scene missing, 'Fade To Black'
You're acting all this out again, again

You have me still because I'm breathing
Although it has slowed down
Please don't cry because I'm leaving
I hope, I see you soon

You know me too well
She's sorry and I can tell
Scene missing, 'Fade To Black'

('Fade To Black')
You're acting all this out again
