You're an angel, I'm a devil  
But we'll meet somewhere in between  
Heaven, hell or the bedroom  
I'll take you away from everything

You're a dream and I'm a nightmare  
But we'll meet somewhere in between  
The sheets, the covers and the headboard  
I'll be a king if you are a queen

I just fell in love for the first time  
Watch as I pick myself up off the ground  
In the dark I'm so far from the spotlight  
Can you see me now?

I turn my back and walk away, away from the pain  
Screaming loud, drowning out by the sound of the rain  
Listen up, I've had enough of all this waiting  
I need you more right now than I ever did

You're the minutes, I'm the hours  
But we'll meet somewhere in between  
Never now or too soon  
I say we meet at a quarter to three

I just fell in love for the first time

Watch as I pick myself up off the ground  
In the dark I'm so far from the spotlight  
Can you see me now?

I turn my back and walk away, away from the pain  
Screaming loud, drowning out by the sound of the rain  
Listen up, I've had enough of all this waiting  
I need you more right now than I ever did

I turn my back and walk away, away from the pain  
Screaming loud, drowning out by the sound of the rain  
Listen up, I've had enough of all this waiting  
I need you more right now than I ever did

I turn my back and walk away, away from the pain

Screaming loud, drowning out by the sound of the rain  
Listen up, I've had enough of all this waiting  
I need you more right now than I ever did

I turn my back and walk away, away from the pain  
Screaming loud, drowning out by the sound of the rain  
Listen up, I've had enough of all this waiting  
I need you more right now than I ever did
