"There Was A Kid"

Visit "[There Was A Kid](#)" on MotoLyrics.com

There was a kid who needed a little mending
He never had a friend, he had a shitty father figure
He was focused on the end, he never cared about
beginnings
His mom was never there and he never had a friend

There was a kid who was failing all his classes
He never had a friend, he never knew he needed
glasses
He focused on the streets, never cared about the
buildings
He tried to kill himself, because he never had a friend

There was a kid who was lonely in the evenings
He never had a friend and his mom was always
working
He focused on the blood he saw when he was
dreaming
He tried to close his eyes because he never had a
friend

He never had, he never had a friend
He never had, he never had a friend
