Did you open your eyes when you first saw me?  
Did you open your eyes when you first saw me?  
First saw me

It's funny how things make sense when you're lonely  
It's funny how you want more when you're happy  
I'm coming over, will you open the door for me?  
I'm better off inside

In your eyes, I see you in disguise  
You're talking backwards, telling lies  
Telling lies

It's funny how things make sense when you're lonely  
It's funny how you want more when you're happy  
I'm coming over, will you open the door for me?  
I'm better off inside
