I wake up
Beside you, in mom's car
I try to get you out,
You're strapped to the backseat
I am too.
The car is rolling down to water.
Why are we
Strapped to our seats,
Trapped,
What did we do?
I cleaned my room just as she asked me to.
Filling up, dirty water,
My chin's up, going under.
You're still asleep, baby brother.
I'll wake you up when this is over.
The car is rolling down to water.
Why are we
Strapped to our seats,
Trapped,
What did we do?
I brushed my teeth just as she asked me to.
This is it, baby brother,
One more breath together
We're almost underwater
Where is mom?
I miss her.
The car has rolled into the water.
Why are we dying in this way,
What did we do?
I was nice to him,
Her boyfriend, this is stupid
When people come to search the lake
We'll be found in our pajamas
They will see
A big mistake is all that this must be
