Thinkin' too much,
Nothin' to say,
Working myself into this state,
Yeah yeah yeah yeah,
Feels as if I'm, losing control
Don't want to be made vulnerable,
You're not to blame (but it's all your fault)

I've been looking but I can't find myself,
I realise I'm lost in someone else
You're not to blame (but it's all your fault)

Feeling' too much
I'm out of place
Can't help but think I'm here too late
Yeah yeah yeah yeah
And here I am, I'm on my knees
To make you feel, make you believe

I've been looking but I can't find myself,
I realise I'm lost in someone else
You're not to blame (but it's all your fault)

And I feel like I wanna run away from,
Here,
And I feel like I wanna run away from,
Here

I've been looking but I can't find myself,
I realise I'm lost in someone else
You're not to blame (but it's all your fault)

I've been looking but I can't find myself,
I realise I'm lost in someone else
You're not to blame (but it's all your fault)
It's all your fault
