A star shining in a universe far away
My heart knows that we shall meet again some sweet
day
And you, you will be the flame that burns in my breast
And oh, I know just by knowing you I was blessed
Yes, I was truly blessed

Heaven, Heaven, ooh, waiting there for me
Heaven, Heaven, ooh, always let it be
Heaven, Heaven, ooh, waiting there for me
Heaven, Heaven, ooh, always let it be

So why, tell me why the good die young, my old friend
I pray that Heaven waits for everyone in the end
And love, love is how we cross that bridge to the light
A star, that is what you are in my darkest night
Be always by my side

Heaven, Heaven, ooh, waiting there for me
Heaven, Heaven, ooh, always let it be
A star shining brightly, ooh
A star shining brightly, always let it be

Heaven, Heaven, ooh, waiting there for me
Heaven, Heaven, ooh, always let it be
