My heart and I have wandered aimlessly  
Beneath the weeping willow searching for the sun  
Time after time we've met each other in a dream  
And we have gazed upon the miracle of love

My heart and I have heard the angels sing  
And we have found upon life's broken wing  
And now we know that love is  
Just another rainbow in the sky  
Mother comfort us in thee we trust  
Have mercy on my heart and I

My heart and I will know no happiness  
As long as we see hate and bitterness  
And like a child we close our eyes  
Do not forsake us when we cry

Mother comfort us in thee we trust  
Have mercy on my heart and I
