"Clouds over me"

Stuck in fear
No more tears to cry
Lie in here
The bad things pass us by
Why did this happen?
Why did this fall?
we haven't done nothin'
Is this that small

Chorus
Slow motions
Open doors
Clouds over me won't stand back anymore
Modifications
Waitin' for you
Clouds over me won't ever go away

Suddenly I wanna be som'body else
I don't know me when I look by myself
Ev'rythin' is so wrong
I won't never belong

Chorus

Preparing
Bothering
I just wanna run away
See myself again

Chorus
