If you wanna see some action
Gotta be the center of attraction
Make sure that they got their eyes on you, like the face
that you see on every magazine

Be the focus of attention
Be the name that every one must mention
Come out from the shadows, it's your time, 'cause
tonight is the night for everyone to see

It's natural
You know that this is where you gotta be, it must be
your destiny
Sensational
And you believe that, this is what you've waited for and
it's you that they all adore, so baby

Now you feel like number one
Shining bright for everyone
Living out your fantasy, the
Brightest star for all to see
Now you feel like number one
Shining bright for everyone
Living out your fantasy, you're the
Brightest star there's ever been

Feel the heat that's all around you
Flashing lights and ecstasy surround you
Everybody wants a piece of you; you're the queen of
the scene, living in a dream

It's natural
You know that this is where you gotta be, it must be
your destiny
Sensational
And you believe that, this is what you've waited for and
it's you that they all adore

Now you feel like number one
Shining bright for everyone
Living out your fantasy, the
Brightest star for all to see

This is what you've waited for and it's you that they all
adore

Now you feel like number one
Shining bright for everyone
Living out your fantasy, the
Brightest star for all to see
Now you feel like number one
Shining bright for everyone
Living out your fantasy, you're the
Brightest star there's ever been
