Hazel O'Connor - A. Karner

There you go, make like the world owes you a living
again
what do you know, I have done for you the best that
anyone could do...
times have been hard, yeah I know, and the knocks
destroy your very soul
you should stop, turn around and start again o come
on!

This could be, the very best
that ever happened to you, happened to me
This could be, the very best
that ever happened to you, happened to me

And you talk to me, you talk to me in words of love
there you go...
and you're dreaming of your future, but your holding
on,
holding on to your past stuff, let it go...

Come on over here and hold me tight
we got the power babe to change our lives

we gotta stop, turn around and start again
oh come on!

This could be, the very best
that ever happened to you, happened to me
This could be, the very best
that ever happened to you, happened to me

And I wanna feel love
and I wanna breath love
and I wanna seethe with love
and I wanna be in, be in love
oh come on!
