Wasn't it good the rose coloured glasses  
Playing our games, taking our chances  
Time was our friend, seemed to stand still  
We were immortal that was until  
We thought we take our fill  
We'd time to kill  
The time ran out on us

Time - ain't on our side  
Time - took us for a ride  
Then time ran out on us

How could we see the way that things change  
Time takes its toll don't stay the same  
Suddenly now is a long time gone  
Time is immortal it waits for none

It's here and it's gone, the time run out on us

Time - ain't on our side  
Time - took us for a ride  
Then time ran out on us

Oh do you remember the first kiss in a darkened  
doorway  
So naive and tender, eyes closed  
Dreaming away. Do you remember?  
We were forever, then time ran out on us
