"Making Me Fall In Love Every Time"

Visit "[Making Me Fall In Love Every Time](#)" on MotoLyrics.com

I cant stand in a lonely road..
Couldn't see your back facing doors...
You kept on walking your distances..
Didn't want to see my face again...

For ages I'm standing by...
Thinking about your late goodbye...
Like the wounds of my open heart.....
Endlessly we stand apart.....

X2

You are the only one who makes me smile...
Taking care of me every time
Standing by me when I am not alright...
Making me fall in love everytime.....

Now when u left me in an empty road....
I kept on shading my tears alone...
Couldn't make out of what is right...
Making me fall in love every time...
