She'll poison your heart
And break down your resistance
Like the bite of a rattler
At close striking distance
She'll show you no mercy
And tear you apart
She tempts and she taunts
She flirts and flaunts
She gets what she wants

On nights when she's lonely
She'll just drop by
She won't come out and say it
But it's clear in her eye
Sometimes I hold her
And sometimes I don't
Whenever it goes
As far as I know
She gets what she wants

Oh, and she
She's got em talkin all over town, oh and she
She's not afraid to stand her ground
She gets what she wants.
She gets what she wants...
