i died this morning  
mouning a loss  
the bees were swarming  
around my cross  
around my neck  
is where it's found  
the earth will shake  
and stop spinning around

the bees sting hard  
around my neck  
around my cross  
i can't forget  
the earth will die  
without regret  
the bees will cry  
no answers yet

don't fuck with me  
the world will shake  
i sting the bees  
i make mistakes  
the bees will live  
and so will i  
i'd like to give  
before i die

The earth will die  
just wait and see  
the bees will cry  
believe in me  
the bees sting hard  
don't fuck with me  
no longer proud  
no longer free
