They say it's gonna rain, look sky is gonna break
Can you tell me why to do things always have to win?
It seems like your -----, but it only just begun
Laughing in the sun I hope you'll be my life long friend

Love is true, it cuts in two: between pleasure and pain,
Between sunshine and rain and between me and you

I'm alive, they say it's gonna rain but I'll survive
And though I'm cryin' out that I'm in pain, I will love
again...

-----? as to know, oh to see your love to come
Suddenly I feel a shadow hanging over me

Love is true, it cuts in two: between pleasure and pain,
Between sunshine and rain and between me and you
I'm alive, they say it's gonna rain but I'll survive
And though I'm cryin' out that I'm in pain, I will love
again...
