Come on lets get it right
Get bent get black or white
Get lost, get out of sight
Get down with me (down with me)

Come on and take my hand
Take out the master plan
Take care of business, man
Take one two three

Go, go, go, go ahead
Go on, get out of bed
Go back to what you said
Go on be free (go on be free)

Just because you've had enough
Doesn't mean you leave

It should never take that long to get you on your knees
Now you want to sing a different song
You gotta sing it begging baby
Please, please, please, please, please
Begging please, please, please, please, please
Yeah

I see you rambling now (rambling now)
I see you stepping out (you stepping out)
You've got your weapon out,
Pointing it at me (oh no no no no no)
So baby fire away, if you miss you better pray
This would be your lucky day
I'm on a winning
I'm on a winning
I'm on a winning streak

Just because you've had enough
Doesn't mean you leave

It should never take that long to get you on your knees
Now you want to sing a different song
You gotta sing it begging baby

Please, please, please, please, please (please please
please please)
Begging please, please, please, please, please (please
please...)
Yeah

Just because
You've had enough
Doesn't mean you leave

It should never take that long to get you on your knees
Now you want to sing a different song
You gotta sing it begging baby
Please, please, please, please, please (please please
please please)
Begging please, please, please, please, please
(please...)
Yeah

Come on lets get it right (get it right)
Get-get it right (ge it right)
Come on lets get it right (lets get it right)
Get-get it right (come on lets get it right)
Come on
