The morning's here and we're still caught up in the  
night

The sky was clear and everything felt right  
Our time is short but I'm sure I'll see you soon  
We'll take another walk along the bridge and  
underneath  
the moon

What a find, if I could I'd hit rewind  
And replay all the moments that I wished I coulda  
called you mine

Chorus  
And tonight I pray,  
Light a way  
I'm in love  
Light a way  
From above  
Shine it down, lead me home  
Back to him

A night away and we've got a few to go and I've  
mastered the art of missing and my smile  
Lots a glow that you showed me how to shine that very  
night we were entwined

Oh god how I wish you were mine

Chorus  
And tonight I pray,  
Light a way  
I'm in love  
Light a way  
From above  
Shine it down, lead me home  
Back to him  
[Bring me back to him]

Now I lay me down to sleep  
I pray my heart you choose to keep  
and if die before I wake, all of me is yours to take  
if I don't see you again

I'd take all I have within  
maybe I'll just stay awake  
I think I'll just stay awake

Light a way  
I'm in love  
Light a way  
From above  
Shine it down, lead me home  
[Light a way, i'm in love]  
Light a way  
From above  
Shine it down, lead me home
