V1: You tell me one thing
Then I turn my back
I hear you whispering (lies x3)
"Let's just shot her up now"
Isn't that what you sad boy?
(Lies x3)

Pre-chorus:
You run your mouth
Throwing words all over the place
Be a man now
Say it to my face!

Chorus:
I hear you've got a secret
(Hush) But can you keep it
I hear you've got some regrets
(Hush) But we're not speaking
You know that secrets don't make
Friends don't you pretend
I hear you've got a secret
But secrets don't make friends

V2:
You pride yourself on love & honesty
You never loved me honestly
(Lies x3) You said I was like a sister
Family with a perfect picture
(Lies x3)

Pre-chorus:
You run your mouth
Throwing words all over the place
Be a man now
Say it to my face!

Chorus:
I hear you've got a secret
(Hush) But can you keep it
I hear you've got some regrets
(Hush) But we're not speaking

You know that secrets don't make
Friends don't you pretend
I hear you've got a secret
But secrets don't make friends

Bridge:

Don't lead me on
And call me a friend
Cross your heart hope to die
We you left me for dead
Do you sleep at night?
For away from home?
I really need you
But here I am all alone
All alone yeah...

Chorus:

I hear you've got a secret
(Hush) But can you keep it
I hear you've got some regrets
(Hush) But we're not speaking
You know that secrets don't make
Friends don't you pretend
I hear you've got a secret
But secrets don't make friends
