Standing by my window
Darkest, coldest night I've ever seen
I feel like I'm fallin' over the edge of a dream

I'm looking back on all the fun we had
I can remember how we thought we had it bad
Laughin' and cryin' together and sleepin' on the floor
We had nothing to lose but it seemed like so much
more

Livin' on love and highway signs
Didn't have nothin, just nickels and dimes
Woke up new and our hearts rang true
Thank God, we lived behind the times

Chorus:
I'm thinkin' back on all the fun we had
I can remember how we thought we had it bad
Laughin' and cryin' together and sleepin' on the floor
We had nothing to lose but it seemed like so much
more
And I hope that the good times come again
Hope that the good times come again

Now I stand here all on my own
Watchin' the sunset, feelin' alone
Meet me back at the places and faces
And to all the good times we had known

Chorus

And I hope that the good times come again
Hope that the good times come again
And I hope that the good times come again and again
