Somewhere lost in selfish pity  
Written deep inside my heart  
Thriving unforgiven city  
Bitter anger whole in part

Little promise unfulfilling  
Snide remarks are left to die  
Close your eyes it's all so chilling  
Shameful secrets I love to hide

Slimy creatures  
Monsters lurking  
Dead flesh creeping  
Inside me

Every breath becomes more painful  
Living in the underground  
You detest the part that lingers  
Futures gone without a sound

My soul becomes a toxic waste dump  
Tragedy is my despair  
I'm standing here in desperation  
I'm all alone and I don't care

My yesterday becomes tomorrow  
Will this anguish ever end?  
I've lived too long inside this darkness  
I've got to force my knees to bend

It's bitterness that breeds misfortune  
In my head it's nuclear war  
Causing mass internal damage  
Unforgiveness just breeds more

Chilling desolation  
Exhausted soul and mind  
Crossroads of my future  
To live God's will not mine
