Whoa

Oh, step in the car turnin' green not a pink

Wire along on a dude turnin' big

People, people are all the same

They got no money can't afford not a single thing

Hey, I go to the doc, he gonna fix me up

Hit me with a bill, cost me twice as much

People, people are all the same

They got no money, can't afford not a single thing

I said people, we are all the same

People, people are all the same

They got no money, can't afford not a single thing

Oh, what's that you say?

Step on the bus, yeah, the fare's gone up, what?

No one ever told me if they give a fuck, no

People, people are all the same

They got no money, can't afford not a single thing

Whoa, people, people are all the same

People, people are all the same

They got no money, can't afford not a single thing

Oh, turn it up too loud

[Incomprehensible]

Step on the bus, yeah, the fare's gone up, what?

No one ever told me if they give a fuck, no

People, people are all the same

They got no money, can't afford not a single thing

Whoa, people, people are all the same

People, people are all the same

They got no money, can't afford not a single thing, not  
a thing no

He ain't got no money, can't afford not a single thing,  
whoa

He ain't got no money, can't afford no luxury

Whoa, no luxury, whoa

Come on, come on
