"Down By Law"

Visit "[Down By Law](#)" on MotoLyrics.com

Why dont you see?
Why dont you face?
Why dont you understand
What we are trying to say?

Innocence in this society a sin
Unjustified jailed for the colour of your skin
Terrified of what they thought you to respect
Corruption and injustice as a matter of fact

Were on a mission to madness
No one can be saved
This is a vision of darkness
For us its too late

Realize when you see blood on the floor
Victimized you are down by the law
Highest price turns right into guilt
Start to rise against the system theyve built

You brought us
Down by law
