

Headshot "Hunger"

Swimming in the shallow end
You won't drown but you won't live
Wading through the daily mire
Safe and sound - uninspired

Walking the well trodden line
You won't get lost but you won't find
Anything not found before
Enough for some - i want more

What does not kill me make me stronger
What does not fill me makes me hunger

Feel that drive - deep inside
Feel that drive - come alive

Living in the comfort zone
You won't get hurt but you won't know
What it is to be alive
What it means to feel that drive

Hunger drives me on

I hunger for intelligence
I hunger for experience
