"Silent Cry"

Visit "[Silent Cry](#)" on MotoLyrics.com

Dark shadows in your mind
Suffering every night
Awake, you cannot sleep
Will it ever end?

Trapped in a world of fear
No nightmare, this is real
The pain will drive you mad
But there is no escape

Your soul is screaming loud
You voice dont make a sound
You fall down to the ground
Silent cry

Do you know who is to blame?
No one cares, play the game
But you know time wont heal
Suicidal thoughts

You feel disrooted and alone
So disrupted to the bone
Lifes a pleasure, you feel pain
Lost your mind, you are insane
