Circling and spinning around my mind  
You sweetly, swiftly shift  
Shaking the shakes I'm faking you're shaking  
And you're quick to steal a kiss  
So in a frozen motion I silently scream  
You flinch but you won't back down  
You dare me, you try to scare me  
But you know I'll stand my ground  
Fuck You  
Inch by inch I'm closing in  
Your eyes have sealed the dawn  
Now it's only a matter of time before you shatter  
Try to walk away with pieces that you want  
So you seek secrets of my soul  
My misery I hope you'll miss  
Cast your hooks, I hope you catch  
A glimpse of blinded bliss  
Fuck you  
Who's gonna guess it, or believe  
Everything's crossed my mind  
So don't you blink, I'm trying to think  
Well everything could unwind  
Well you move me, you used to use me  
Now it's time to stand this ground  
And if I don't come back, nothing will collapse  
Nothing really ever comes around  
So surely I said sorry  
If you believe half the things that we've done  
You must've done them too  
Cause you know I'm cut in two  
Just above the balcony I'm hung from  
Fuck you
