### "Teeth And Tissue"

Visit "[Teeth And Tissue](#)" on [MotoLyrics.com](https://MotoLyrics.com)

Spending time in abandoned hotels  
Well that's where I went just to hammer it out  
And there's little left of me here but teeth and tissue  
It's so hard, so hard to be cautious  
When you swim this close to the bottom  
All we collect is ourselves and abuse  
You said you would, and then you wouldn't  
Maybe you tried, but you just couldn't  
There's nothing left of me here but teeth and tissue  
Teeth & tissue

We all got problems, I got problems of my own and  
I choose to solve them, by setting them afloat  
I just seem to feel better when they're out of view  
You said you would and then you wouldn't  
Maybe you tried, but you just couldn't  
There's nothing left of us dear but teeth and tissue  
Teeth & tissue

Sometimes I wonder if I'll ever come up, come up  
The lines are twisted and the mask came off  
Building speed in abandoned hotels, well that's  
Where I went here just to hammer it out  
And there's nothing left of me here but the truth  
No longer wonder just what they meant  
I wash my hands in the discipline  
Sew it all back up with the glue  
You said you would and then you wouldn't  
Maybe you tried, but you just couldn't  
There's nothing left of us but the glue  
Teeth and tissue
