I don't know, you don't know, i don't know any thing in my head. its head strong right here to night, every one is here but you tonight. every one is looking for you. ive been waiting all my life for this dance to happen... but now im dissapointed, because you arent here. VERSE 2: if youre gunna be like this i dont want to da-ate you if youre gunna be like this then who is the one? REFAIN: I dont know, you dont know, i dont know any thing in my head. its head strong right here to night, every one is here but you tonight. every one is looking for you. ive been waiting all my life for this dance to happen... but now im dissapointed, because you arent here.
