Hey darlin darlin gonna say it true  
No one understands me like you do  
I got the story when I was a child  
I took me over and turned me wild  
Only to make it true

But when I'm alone all alone  
No one home, the tv and the phone  
Still say 'it will rain today"  
O.k.

Hey darlin, darlin help me understand  
What went wrong with the peaceful plan  
Was it bold?

I ain't wishing for what used to be  
I only hope that you and me can keep hold, unsold

When you go t no history, you're free  
You sing and you believe so strong  
You hold out fast and long, so long

Now the latest is the greatest is their plan  
But they didn't make us and they can't break us  
Darlin, darlin I don't think they can  
Darlin, darlin I don't think they can

Hey darlin, darlin how's it gonna be?  
I love to hear what you sing to me
