Who was with you - where you been?
Baby it can't be this again
I can't cool it 'cos I can't win it with you

Words like punches - things we said
Under the belt and in the head
Down for the count in a cold cold bed
Beat by jealousy

Jealousy - jealousy
Stanglehold - love can't breathe
Let me be - set me free
Jealousy

You won't hear what I imply
What you say - I won't buy
You deny but you lie
Jealousy

Jealousy - jealousy
Stanglehold - love can't breathe
Let me be - set me free
Jealousy

Down suspicious - torn in doubt
Dirty vicious - knock me out
Danger, danger - stakes are high
Hook the blow between the eyes
Every round - we lose more ground
Jealousy

Jealousy - jealousy
Stanglehold - love can't breathe
Let me be - set me free
Jealousy
