Taste the fruit of life

Don't stop yourself to wonder why

(Oooohhh) Fruit of life

Taste the fruit of life

Don't stop yourself to wonder why

(Oooohhh) Fruit of life

Something in your eyes

Makes the water (?)

And the leafs fall from the trees

It happens everytime

Love so warm & gentle

Sailing smooth across the sea

Hold fast to this feeling

Never take the chance & let love go

(No no babe)

Here for you & willing

I wanna know your way

Let's take it nice & slow

Taste the fruit of life

Don't stop yourself to wonder why

I'll be here to help you choose your flavor of love

(Fruit of life)

Taste the fruit of life

Don't stop yourself to wonder why

Makin' it your everything you always dreamed of

(Fruit of life)

Keeper of my dreams

Like the moonlight dancin'

Silver rays across the skies

Such a special thing

When we're 2 as 1 together

We can fly so high

Night time puts me in the groove

My cares are washed away

My silent mood (washed away, baby)

Sunlight dares to steal the moon

Look & see how love can be

Taste the fruit of life

Don't stop yourself to wonder why

I'm gonna be here

To help you choose the flavor of love

(Fruit of life)

Taste the fruit of life

Don't stop yourself to wonder why

Makin' nature

Everything you always dreamed of

Taste the fruit of life

Shoo be doo be doop

Shoo be doo be doop

Shoop doop

Brighter & brighter

My lovelife will shine

It's the keeper of dreams that just fall from the sky

Never let it go astray, no

Silence is beauty

And music is love

Happiness keeps you from sadness that once was

Look at you, I see how good true love can be

Ohh oh!

Hold fast to this feeling

Never take a chance

Never take a chance

And let love go, no no

Here for you & willing

Oh no you won't, no you really won't

Take it na-na-na-nice & slow, oh, oh

Taste the fruit of life

Don't stop yourself to wonder why

Whoa, ohhhh, ey ee hee hey, ey ee hee hey

(Fruit of life)

Taste the fruit of life

Don't stop yourself to wonder why

I'll be here to help you, if you want it, 'cause you got it

goin' on

You want my lovin' & I wanna give it all to you baby

Taste the fruit of life

Don't stop yourself to wonder why

Can you feel my love?

It's goin' on

You got me feelin' so so strong, my baby

Taste the fruit of life (Sweet baby)

Don't stop yourself to wonder why

Can you feel it?

Can you feel it?

Ya got it goin' on, so strong

Taste the fruit of life

Don't stop yourself to wonder why

Ah-ooohhh, ha ha ha ha

(Fruit of life)

Taste the fruit of life

Don't stop yourself to wonder why
