Who was with you? Where've you been?  
Baby it can't be this again  
I can't cool it 'cause I can't win it with you

Words are like punches, things we said  
Under the belt, in the head  
Down for the count in a cold-cold bed  
Beat by jealousy

Jealousy, jealousy  
Stranglehold, so love can't breathe  
Let me feel, set me free  
Jealousy

You won't hear, what I imply  
What to say, I don't buy  
You deny but you lie  
Jealousy

Oh, jealousy, jealousy  
Stranglehold, so love can't breathe  
Let me feel, set me free  
Jealousy

Down suspicious, torn in doubt  
Dirty vicious, knock me out

Danger, danger, stakes are high  
Hook the blow between the eyes  
Every round, you know we lose more ground  
Jealousy

Jealousy, jealousy  
Stranglehold, so love can't breathe  
Let me feel, set me free  
Jealousy
