Slipped in this morning with the lights still in your eyes
You got all tangled up in your little white lies
I won't let it go won't let it get that far
I swear I'm gonna catch you with your fingers in the
honey jar

(Ann chuckles) "that's right"

I'll get to the truth if it's the last thing I do.
I got my risin suspicions got me eye on you
do you think I don't see it do you take me for a fool ?
Got my risin suspicion got my eye on you

If you got something to say well I think you better tell us
now.

Your deluding yourself if you think I'm getting jealous
baby.

I'll get to the truth if it's the last thing I do
I got my risin suspicion Got my eye on you.
Do you think I don't see it do you take me for a fool ?

Got my risin suspicion got my eye on you.

2 x 4 x 6 x 9 just don't add up no more than your lies.
I'll get to the truth if it's the last thing I do
I've got my risin suspicion got my eye on you
do you think I don't see it do you take me for a fool ?
I've got my risin suspicion , emm hmmm
I'll get to the truth if it's the last thing I do.
I got my Risin suspicion I got my eye on you.
