

Heart "Things"

Visit "[Things](#)" on MotoLyrics.com

Things ain't what they used to be
Now I believe in all extremes
Things ain't what they used to be
And that won't change till we're a hundred and three

Let's never try to solve it baby
The equation of you plus me

Things ain't what they used to be
Can you believe it all we've seen
Things ain't what they used to be
It's theme park living A to Z

Let's never try to solve it baby
The equation of you plus me

It's all the same we're here today
Yesterday is just a dream, ancient history
It's all the same we figured out
What to take and what to leave, for the honey bees

Things ain't what they used to be
No money and no guarantee
Things ain't what they used to be
Our future's in a cup of China tea

Let's never try to solve it baby
The equation of you plus me

It's all the same we're here today
Yesterday is just a dream, ancient history
It's all the same we figured out
What to take and what to leave, for the honey bees
