Mama said she doesn't, want me hangin' round  
Whatever you do now, don't let mama know  
I slip out in the darkness  
In the frosty moonlight  
Fly across the silver moon in the meadow

Candle in the window, shadow in the shade  
I know my love lies, waitin' inside  
Close the door, now  
Have a taste of wine  
Know it's been too long a time

Oooooo, yes it has

Way down in the pass my love, feels so young and fine  
Wrappin' love around me, the wind is high  
Every minute passing  
I want to hold you  
Every minute goes too long a time

Too long a time  
Too long a time
