It's too late to turn back
When the green lights flash
It's too late to turn around
When the love goes down

Your fire, my fate
This woman won't wait
So love beam your laser light
Get ready gonna take this flight

You're so wild
(You're wild and willing)
You're so wild
(Your spirit's free)

You're such a wild, wild child
(You're wild and willing)
Oh, babe, go wild with me

Two hearts, one mind
Oh, baby you're my kind
You're too hot, you're too much
You've got that personal touch

You're push button, play thing
Make my back door ring
You fight fire with a little fire, baby
You oughta know you make this little girl sing

You're so wild
(You're wild and willing)
You're so wild
(Your spirit's free)

You're such a wild, wild child
(You're wild and willing)
Oh, go wild with me

Oh, do your little shake, baby rattle and roll
Ring my bell baby, do my soul
Don't let the grass grow under my feet
Play my drum, baby feel my beat

You're so wild, so wild
Oh, oh, ooh, go wild with me
(You're wild and willing)
Uhh, yeah, yeah
(Your spirit's free)
(You're wild and willing)
Yeah, yeah

You're so wild
(You're wild and willing)
So wild
(Your spirit's free)
You're so wild, yeah yeah
(You're wild and willing)
Come on, go wild with me

You're wild and willing
(You're so wild)
Your spirit's free
(You're so wild)
You're wild and willing
(Go wild with me)

You're wild and willing
(No no no no no)
Your spirit's free
(You're such a wild, wild, child)
You're wild and willing
(Yeah, yeah)
