Wearin' shades - at the club  
this time - I'll fuck you up

big chains round your neck  
perfect to pull you back  
wearin' same gear every day  
this time I'll make you pay  
touchin' hoes all the time  
killin' you ain't a crime  
twenty years of wasted time  
in the end a broken spine

wanna look like damon dash  
this time you'll get bashed  
you're so cool yeah I see  
but you got nowhere to flee

exercises - ending here

you're hunted - like deer  
like deer

act like you're a player  
you better say your prayers  
act like you're a player  
your dreams end up in chaos

nice girl on your side  
can run but can't hide  
talkin' same shit every day  
now you hear what I say  
cold sweat all the time  
making you feel fine  
nothing but wasted life  
finished with a switchblade knife

I'll - fuck - you - up  
I'll fuck you up
