

## Hearts In Stereo "Dance Dance"

Visit "[Dance Dance](#)" on [MotoLyrics.com](#)

Shake it off, let the day just fade away  
tonight will make it all ok  
got my friends, city lights and the VIP  
this could be the night of nights  
I've waited too long, so long, to feel this way  
to feel normal again  
so take it slow, there's no rush, as the sun goes down  
get ready to dance

So if you feel this, let me see your hands up,  
if you let go i promise you  
if you just feel this, let me see your hands up  
and let go

So just dance dance  
everybody move now  
if you feel the music, try to lose control

Everybody dance dance  
feel if in your body  
let the beat just take you  
and try to lose control

so dance

We're young and free, feeling good, and we own the  
night  
we'll walk away from the 9-5  
we're free to move, free to dance, cause the moments  
right  
this place tonight, is what we call home  
feel the beat feel the bass through the stereo, hearts  
pounding in time  
slow motion lights, breathe the air as we come alive,  
we live forever tonight
