The warrior's path, for you to decide  
A warrior's path, a sword by your side  
A warrior's path, your fate in your hands  
A warrior's path, to distant lands

The warrior's path, a hunger for war  
A warrior's path, a tavern, a whore  
A warrior's path, life under the skies  
A warrior's path, who knows when you'll die

The warrior's path, a maiden to save  
A warrior's path, a one man crusade  
A warrior's path, no guilt and no shame  
A warrior's path, ignoring the pain

The Path of the warrior, nomadic the life  
Path of the warrior, the law of the knife  
Path of the warrior, and warrior's deeds  
Path of the warrior, to Valhalla it leads
