Yeah, say what  
Now how the God damn pot go and call the kettle  
black? that bull shit  
Yo, but this ain't though  
Chapter 7, verse 1, attention

[chorus]

All balls don't bounce, some balls roll and some balls  
hang  
And some people have a ball doin' they thang  
Now what's the result? your life is biased  
All one-sided surrounded by liars

Trials and tribs  
It's all ad-libs, and all breakin' you a coupla ribs  
Now what if I breaks the tail on the lizard  
Is it gonna grow back?  
It is and you know that  
But that ain't the case  
I picture the place  
I capture a kodak and show dat face  
You're just a shit stain on the draws of life  
And the trials of life, and the styles of life  
You won't be happy 'till you lost your life  
Or lose your mind, or die of boredom  
Or try to kill 'em all and let your God sort 'em  
Better earn your keep, and learn to leap  
Or burn in your sleep  
Tryin' to get a little somethin, yo I peep  
You bein devoted, but you shoulda let it seep thru the  
mask you sported

[with chorus in background]

You ended up a swiggler caught in a swiggle  
Just gimme the signal  
And I'll state the terms  
As long as I can be there with fate to change  
You smokin sherm  
Or whatever the name, you're a trivial part in a trivia  
game  
Now what's your aim? a presidential campaign

Like ross perot, he lost it though  
But he got a billion in da bank for show  
Oh me I'm po' and you like me  
But I don't like you, nigga you all fronts  
And I won't let one apple spoil the bunch  
Now get yo' hat & get yo' coat  
All afloat, we goin' back to the real  
I got a question, answer me this  
What if me and you got caught in a twist  
And you accidentally got caught by the fist  
What's the gist, or what's the justice  
Or better yet what if I had got busted  
For tryin to go out like general custer  
Well kiss yo' family, meet me at the juncture  
Better have a little bit a acupuncture  
I reckon that you gonna have to smoke another  
bongload to get you enough  
To open your mouth  
Because I doubt that you know what it's really about

[chorus]

Heard you keep your jewels in a safe  
That ain't safe with a \$10 locket  
I keep mines in between my front pockets  
Cause I'm a darkie and they want me  
Castrated, assassinated, well here's your merit  
Better wear it  
With pride, just don't get all mushy inside  
And don't get pushy  
Or wishy washy, your heart is squishy  
When it should be strong, your tail is bushy  
When you shouldn't even have one  
Do you want another big hit of the bong?  
All balls don't bounce, now you wanna get indignant  
Show your stupidity and act all ig'nant  
Now you got pigment, so you my kin  
It's like the hand it's still on ice  
So you might starve tryin' to carve you a slice  
With a little brown rice and some black eye peas  
Or 2 black eyes and 2 broke knees  
And 2 broke niggas tryin to steal the cheese  
Got family ties, your family's giving  
Your family tries, your family's living  
Your family croaks, dies of a stroke  
And that's the end, but then you awoke  
As a baby again  
So in your next life you can be squabblor  
And eat peach cobbler till you get fat  
You can even live in a manshion or a wigwam  
Just remember all balls go flat
