130d

hey dude you want me to start, like, four bars up in this  
shit

(yeah, nigga, what, you got dick on your mind or  
something?)

aw nigga fuck you

[Riddlore]

Hey pussy, listen

your hearing aid'll be his ass whipping

pussy, your rhyme keeps on slipping

go home and gets to trippin

pussy, I slow your row with that tampon

your flow be midthrown

come up out that couch and plant my flag in your  
neighborhood

you got cable, I'm leaving toenail clippings on your  
table

[Vic Hop]

now I break lots of crews up

who cruise up like they got big nuts

what I dig up gets

big ups and also blow some wigs up

get up for the beat down

I'm taking your seat now

relaxing my feet up on the coffee table

while I floss me labels-

fool!

[Aceyalone]

I got what the fuck you need and more

I'll kick in your door dammit then slam it behind me

you'll find me in the bedroom where your kids is at

I tell 'em that their daddy's gonna die

then give 'em smacks and get some stacks

and hit the sofa with a loaf of bread and some chicken  
backs

feet up on the table and your woman in my lap

[Ellay Khule]

blast off, lift off, wanna twist off the cap  
the love of my life is the rap  
the love of your life in my lap  
leap if your feeling lucky  
my speech ?? ?? Kermit  
your walking that style with no leash, do you have a  
permit?  
cut it out like some scissors  
get rollin' like Twizzlers sweets  
drivin' a big blue up the streets  
bumpin helluva beats through your weak butt  
me I gotta maintain my rep, wake up you slept  
lucky to get slapped, I should have just broke your neck  
got juice like in a dream, blow up like gasoline when it's  
lit  
you battle him and you battle them, but I really don't  
give a shit
